

Round Robin

This strategy enables students to review and correct missed and misunderstood information.

Teacher Preparation:

1. Prepare sets of review cards with one question per card. Prepare one set for each group.

Lesson Plan:

1. Arrange the students in groups and give each group a set of review cards.
2. Have the students in each group number off.
3. Student #1 in each group draws a card and reads the question.
4. Everyone in the group writes out an answer.
5. The person to the right of #1 reads his/her answer.
6. If the group agrees with the answer, student #2 draws a card and repeats the process. If the group does not agree, members should share alternative answers and see if they agree on one. If they cannot agree, the teacher resolves the issue.
7. Repeat.

Adapted from a workshop conducted by Daniel R. Moirao for the Wake County Public School System.
